

Are You Looking To Build Your Private Practice?

Health Professionals don't go into practice to worry about paperwork, marketing & selling their services. They want to focus on delivering great therapeutic services and products to a clinic full of clients.

We understand this.

At **IntoFocus**, we help new and established health professionals meet the everyday business demands of being in private practice.

Our "**Business Focus Programs**" offer training & services that help today's health professionals run a successful practice.

Success In Your Private Practice - Business Essentials Workshop

At our workshop, you will learn the essentials of running your private practice. We will cover:

- Setting-up you private practice
- Marketing fundamentals
- Effective networking & identifying your ideal clients
- Finance basics
- Promotional techniques to build your client base
- Efficient systems for running your practice
